

AFP DETECTS ATTACK ON ITS IT SYSTEMS

Agence France-Presse detected an attack on its IT systems on Friday, affecting part of its delivery service to clients. It is not yet known who carried out this attack or why.

AFP's technical teams are working on the incident with the support of the French National Agency for IT Systems Security (ANSSI). The relevant authorities in France have been notified.

We are currently working to analyse and deal with this incident.

AFP's newsroom and all its services continue to provide news coverage across the world.

About AFP

AFP is a leading global news agency providing fast, comprehensive and verified coverage of the events shaping our world and of the issues affecting our daily lives. Drawing from an unparalleled news gathering network across 150 countries, AFP is also a world leader in digital investigations.
